EXPERIENCED AT PROVIDING QUALITY PATIENT CARE SOLUTIONS

As Canadian innovators in the field, Interspec Systems has maintained a commitment to fulfilling patient care service needs for over 40 years. Our wide range of custom extrusion profiles and in house manufacturing capabilities allow us to fill any requirement and allows for a level of design flexibility unmatched by any other manufacturer in the industry. Our quality control team, to ensure every product meets and surpasses "North American" quality standards, closely monitors all of our materials and workmanship. If it's a new hospital build, or a small renovation, we can assist you with customized solutions to suit your requirements. Layout assistance, product samples, shop drawings and complete detailed specifications are all an integral part of our process. Our experienced team will assist you in creating the most efficient and streamlined product possible. Let the commitment and experience of Interspec Systems Limited make a difference to you.

WWW.INTERSPECSYSTEMS.COM

ENVIRONMENTALLY CONSCIENCE

Interspec Systems Limited is an environmentally conscience company that is able to meet and fulfill our customers environmental concerns and standards through our products and manufacturing. In our manufacturing processes we use 100% recyclable aluminum, which can be recycled many times without losing its properties. All of our process produced scrap aluminum, stainless steel, copper and other steels are recycled. Through our process management, quality management and use of recycled materials, Interspec may be able to increase your rating on LEED (Leadership in Energy and Environmental Design) projects by helping you to meet the highest standards of these important LEED performance criteria. If you have a RoHS (restriction of Hazardous Substances) directive, Interspec is able to assist you in achieving a RoHS compliant product. Through Interspec Systems Limited quality control systems, our sustainable accepted suppliers and our commitment to environmentally sound practices, in a timely and experienced manner we can help our clients achieve whatever level of "Green" initiative they are striving for.

4 hook IV pole 12"	8019 - 12"
2 hook IV pole 18"	8015 - 18"
4 hook IV pole 18"	8019 - 18"

Infusion Pump Support- Single Mount

The Single Mount Infusion Pump system allows quick attachment of infusion pumps or other pole mount devices. The Infusion Pump Mount is 24" in height and swivels 180 degrees. Requires 2 vertical track adaptors.

Note: IV trees available in 2 hook and 4 hook. Double mount available upon request.

DESCRIPTION	STOCK NO.
Single Mount Infusion Pump (requires 2 Vertical Track)	8050

Ophthalmoscope Mounting Adaptor

The Ophthalmoscope Mounting Adaptor mounts securely to vertical and horizontal equipment management systems. The mounting adaptor is provided complete with 1/2" (12.7mm) post and requires the use of either the Horizontal Pole Mount Adapter (8016) or the Vertical Pole Mount Adapter (9320). Our standard model offers a mounting solution for the Welch Allyn 767 Ophthalmoscope. Other styles are available on request.

DESCRIPTION	STOCK NO.
Ophthalmoscope Mounting Adaptor	8041

Requires 9320, 6010 or 8016.

Thermometer Adaptor

The Turbo Temp Thermometer mount provides simple mounting solution for any brand of thermometer including models from Filac, Alaris, and Diatek. Available in both Pole Mount or Fairfield style mounting options.

DESCRIPTION	STOCK NO.
Turbo Temp Mounting Adaptor	8082

Vacuum Bottle Slide

Vacuum Bottle Slides offer a convenient way to securely hold items such as suction canisters and other secondary equipment. Slides can be mounted directly to the wall, as well as any of the Pole Mount, Fairfield Mount, or Track Mount Options.

DESCRIPTION	STOCK NO.
Vacuum Bottle Slide	8011
Vacuum Bottle Slide with Fixed Track Mount	8054

Vacuum Bottle Cove

Vacuum Bottle Storage Tubs are used for storage and/or protection of vacuum bottles. Standard bottle coves are partially recessed into the wall which frees up valuable workspace. Surface mounted enclosures are available for cases where recessed mounting is not an option.

DESCRIPTION	STOCK NO.
Two (2) Bottle Storage Cove complete with guards and vacuum slides	8010
Three (3) Bottle Storage Cove complete with Guards and slides	8009

Gas Block

Mounts directly onto the Horizontal Fairfield Style equipment management rail system. Gas blocks are drilled and tapped for 1/4" NPT male connectors to accept any DISS or Quick Connect Fitting.

DESCRIPTION	STOCK NO.
Single Gas Block	6030
Double Gas Block	6020

Resuscitation Bag Holder

The Resuscitation Bag Holder safely holds the resuscitator bag within easy reach of the medical staff. The holder mounts directly onto the Horizontal Fairfield Rail or Vertical Accessory Management Tracks.

DESCRIPTION	STOCK NO.
Resuscitator Bag Holder	8014

Blood Pressure Cuff Hanger

A simple and effective method of safely securing your blood pressure cuff. Available as a Fairfield mounted device.

DESCRIPTION	STOCK NO.
BP Cuff Hanger	8018

Oxygen Cylinder Holder

The oxygen cylinder holder allows safe mounting of portable oxygen cylinders. Rugged stainless steel construction ensures years of care free service. Fairfield Mount is standard, but other mounting options are available.

DESCRIPTION	STOCK NO.
Oxygen Cylinder Holder	8081

Oxygen Air Blender Bracket

Used for mounting oxygen/air blenders or “Bird Blenders”. Available in Pole Mount and Fairfield Style mounting configurations.

DESCRIPTION	STOCK NO.
Slide Adapter	8012
